

Audience & Purpose Chart

Directions: With your group, look at each source in your research station box. Chart the numbered sticker for each source according to its audience and purpose.

Audience: *Who is the source for?* Can anyone read, understand, and use it? Is it for experts who already know something or a lot about the topic? Somewhere in between?

Purpose: *What is the source for?* Is the source trying to entertain you? Persuade you to do something? Just inform you? Something in between?
