

The Kahoot helps to establish where the class is in terms of searching techniques. The instructor responds to the needs identified in the Kahoot to further tailor the class to the needs of each group. Highlighted answers are the answer we are looking for to help discern if a concept needs to be explained more or not.

When playing this the instructor has a variety of snacks for the entire class but the winner gets to select their snack first.

1. When researching any topic you should always only use scholarly resources
 - a. True
 - b. False**
2. If the library doesn't have an article you...
